Stephen,

Thanks for following up.

I had written to my town meeting representatives about the project at the corner of Broadway and Everett, which I can see from my back door. I had longer conversations with Larry, who lives a few houses up the block. My opinion was as polished as it was going to be, so I sent a letter as Larry had advised/requested.

I did receive an email saying that my submission was rejected. The instructions in the letter were not helpful. It was not clear that I would be able to figure it out before the day of the vote. (It was down the to last week.) So that is where I left it. I think I copied more than people than Larry, but I know that my opinion had had at least his representation.

I still think that Arlington is a premium housing market, and that the town should be able to something extra in exchange for the bonus fifth floor, as opposed to a fractional fulfillment of what is requested.

David

Hi David,

My name is Stephen Harrington. I was doing some research on Town Meeting and the town was kind enough to send me all requests from residents to disseminate advocacy to the Town Meeting. I came across one such Letter from you, attached.

I am curious, because I did not see your Letter in the archives, the Annotated Warrant, and I wondered why.

Would you share what happened? Did you try to follow up using the guidelines? I am trying to work with the Town to clarify and revamp how resident advocacy is

handled and any experience you can share will be helpful.

For what its worth, I thought your advocacy was well written, germane and added to the debate.

Thank you,

Stephen Harrington
