Hi Stephen,

Thank you for your patience. The archiver didn't pick up any additional messages when I put these search terms in. I was able to find two messages separately that seem to have been missed the first round. See attached. I will see if there are any additional ways to pull up messages.

Again, thank you for your patience on this one.

Christine

Hi Stephen,

I will run another search for TMM email list with terms: denied, denial, not approved. I will see if there is anything that I am missing.

I did connect with Greg and he informed me at the time that all emails would have been captured on the server.

Thank you for your patience.

Christine

To save everyone time, there are 31 embedded PDFs in the TMMemails2026.pdf attachment from earlier, all dated 2026 and representing approximately 14 distinct subject threads.

The individual PDFs document numerous approvals and collaborative edits for dissemination through the TMM Email List and Annotated Warrant. One record denies a three-minute video for live presentation while expressly offering TMM Email List distribution as an alternative; another declines distribution of a spreadsheet in its raw form while arranging dissemination of selected content. The Chief can post as herself and so on.

It contains no clear denial of a request for such dissemination and none of my documented 2026 dissemination requests which were clear, terse denials.

The inference is that in 2026 only my submissions were denied.

Greg, could you save everyone time and confirm that in 2026 only my submissions were denied?

Jim and Christine, Please, collect the 2024, 2025 submission denials including any of mine.

Best,

Stephen Harrington

Jim and Christine,

Greg's response below does not resolve the outstanding public-records request. The request is to the Town for records of submissions rejected from dissemination through the TMM Email List or Annotated Warrant from 2024-2026.

Greg states that he assisted with the search and defers to Christine's "full findings." Those findings do not include known responsive records. Attached are two examples from 2026 that I submitted to Greg requesting dissemination and that were not disseminated. Neither appears in the production which covers the 2026 year only. Please supplement the production with the responsive records, or clarify the basis on which these known responsive communications were omitted from the Town's full findings.

Thank you,
Stephen

The current response of the PRR is also attached for completeness.

Dear Mr. Feeney,

I have an outstanding records request with Christine Bongiorno concerning Town Meeting Members Email List messages. First, I think Mrs. Bongiorno does an exemplary job as the Records Officer, always professional, always keeps me informed of progress.

The outstanding records request is to complete the TMM Email List archive for all items rejected by the Moderator for inclusion into the Town's communications/archive TM portal. Finding rejected submissions that are not in the archive is a difficult task.

I think Mr. Christiana needs to assist in this records request.

To make it clear, I am making a public records request for all submissions to disseminate documents to the TMM Email List that were rejected. A copy of the submission and rejection emails would be sufficient. As well, if Mr. Christiana can confirm that only *my* submissions were rejected for the period 2024-2026 that confirmation would also suffice.

I have CC'd Mrs. Bongiorno here to avoid cross communications.

Regards,

Stephen Harrington
